Mobile Money Exercise Sheet

MODULE 2

Exercise 3

Your Online Safety Score

Estimated duration
10 min

Material
Device with Internet access go through an online test.
Pen for the off-line test.

Instruction

The test can be conducted individualy or in a group of people. It can be used as an online test or with a paper and pen. The answers are YES and NO. Online test will prepare your Safety score or your mentor can prepare and explain the results.

Answer with a YES or NO

1. Do you use two-factor authentication on your devices? For example both fingerprint authentication and a password.
2. Do you use a password vault? This is where all of your passwords for multiple accounts are stored together securely.
3. Do you use private browsing when you are online?
4. Do you set all of your social media visibility to private?
5. Do you regularly post photos on social media which share your location?
6. Do you regularly check your bank transactions to make sure that there are no expenses that you are unaware of?
7. Before entering your credit card details when online shopping, do you make sure that there is a padlock sign or proof that the website you are visiting is secure?
8. Do you have security software installed on your computer, such as anti virus, anti spyware or firewall?
9. If your computer prompts you to update the software, would you do this right away?
10. Do you use a different password for each account you have a login for?

Congratulations!
Your online security score is ********_____*****
